---

## PROFESSIONAL SUMMARY

Results-driven IT Systems and Database Administrator with 3+ years of hands-on experience across Tier 1–3 technical support, SQL/PostgreSQL/Firebird database administration, system migrations, and Windows Server infrastructure. Promoted from Junior to Mid-Level at Questor Sistemas in under a year, overseeing production environments for 50+ corporate clients. Complementary frontend skills in React and JavaScript enable full-stack thinking — from data pipelines to user-facing dashboards. BSc in Information Systems. Eligible for UK Skilled Worker Visa sponsorship; open to relocation across Europe.

## CORE COMPETENCIES

**Databases:** SQL Server · PostgreSQL · Firebird · T-SQL · Query Optimisation · Performance Tuning · Backup & Recovery · High Availability · Database Migration · Stored Procedures

**Infrastructure:** Windows Server · Server Configuration · IT Infrastructure · Preventive Maintenance · Post-deployment Testing · Network Configuration

**Support:** Tier 1–3 Technical Support · Helpdesk Management · Remote Assistance · Incident Management · SLA Compliance · User Training

**Reporting & BI:** Custom SQL Reports · Dashboard Development · Data Analysis · Business Intelligence · KPI Reporting

**Development:** JavaScript (ES6+) · React · HTML5 · CSS3 · Responsive Design · Git · GitHub · Netlify · npm

**Soft Skills:** Client Communication · Cross-functional Collaboration · Agile Basics · Problem-solving · Technical Documentation

---

## PROFESSIONAL EXPERIENCE

### IT Systems & Database Administrator — Mid-Level

Questor Sistemas · Chapecó, Brazil

Oct 2025 – Present

- Administer and monitor production SQL Server, PostgreSQL, and Firebird environments for 50+ corporate clients, ensuring high availability, security, and continuous performance.
- Lead zero-downtime database migrations and major version upgrades, with full post-migration validation, data integrity checks, and rollback planning.
- Design and optimise complex SQL queries and stored procedures, reducing report generation latency and improving application response times.
- Conduct performance testing, execution plan analysis, and capacity planning; implement preventive solutions aligned with database best practices.
- Develop 10+ custom SQL reports and BI dashboards monthly, delivering actionable KPI insights directly to client management teams.
- Provide Tier 2–3 server-side support across Windows Server environments — installation, configuration, troubleshooting, and post-deployment validation.

### Junior Database Support Administrator

Questor Sistemas · Chapecó, Brazil

May 2025 – Sep 2025

- Performed daily backup and restore routines, availability monitoring, and alert management across production and staging database environments.

- Analysed SQL query execution plans; identified performance bottlenecks and collaborated with developers to implement optimisations.
- Assisted clients with server installations, database configurations, and patch deployments with minimal downtime.
- Built and maintained internal knowledge base of support procedures, reducing repeat-incident resolution time.

### Support & Reporting Analyst

Questor Sistemas · Chapecó, Brazil

Dec 2024 – Apr 2025

- Managed system updates and database migrations for client transitions; performed compatibility analysis and post-migration validation.
- Developed custom SQL queries and reporting layouts, transforming raw ERP data into strategic insights for stakeholders.
- Provided specialised Tier 1–2 technical support for server and workstation installations and ERP configurations.

### Freelance Frontend Developer

FDG Code · Chapecó, Brazil

Nov 2024 – Dec 2024

- Designed and deployed 3 complete client websites using React, HTML5, CSS3, and JavaScript — sub-2s load times with cross-device compatibility.
- Worked end-to-end: client briefing, wireframing, development, and deployment on Netlify.

### IT Equipment Maintenance Technician

AGP Tecnologia e Informação · Chapecó, Brazil

Nov 2024 – Dec 2024

- Diagnosed and resolved hardware and software issues; managed data backups and network peripheral configuration.
- Managed helpdesk tickets with full traceability; maintained IT compliance standards across managed environments.

### Computer Support Analyst

UCEFF · Chapecó, Brazil

Apr 2022 – May 2024

- Delivered Tier 1–2 technical support for 200+ institutional users across software, network, and hardware environments.
- Managed software deployments, system troubleshooting, and IT asset inventory; trained users and documented procedures.
- Reduced repeat incidents through structured knowledge-base documentation and proactive user training programmes.

## KEY PROJECTS

---

### SQL Reporting & BI Dashboard Suite — *SQL · PostgreSQL · Firebird · Data Visualisation*

Built 10+ custom SQL reports and management dashboards at Questor Sistemas, converting raw ERP and database data into visual KPIs used by client leadership — significantly reducing manual reporting cycles.

### ERP API Integration Module — *REST API · JavaScript · JSON · PostgreSQL*

Designed and implemented REST API connectors linking client platforms to third-party ERP systems, automating data-sync workflows and eliminating significant manual data-entry overhead.

### Client Portfolio & Landing Pages — *React · CSS3 · JavaScript · Netlify · Vite*

Designed and delivered 3 complete client websites from concept to deployment; focused on performance (sub-2s load times), responsive design, accessibility, and SEO. Live at fernandos-dev.netlify.app.

## EDUCATION & CERTIFICATIONS

---

## **BSc in Information Systems — Estácio de Sá University · 2021–2025**

- Discover — Web Development (Rocketseat · 2023)
- Programming for the Internet — Estácio University
- Scalable Algorithms and Systems — Estácio University

### **LANGUAGES & ADDITIONAL**

---

**Portuguese:** Native · **English:** Intermediate (B1) — Conversational (Cultural Exchange, Ireland 2020)

Open to relocation to the United Kingdom · Eligible for Skilled Worker Visa sponsorship
